School Safety & Security Bulletin

New Hampshire Information & Analysis Center

(U) School Safety Resources/Trainings

The NSI is a critical aspect of the U.S. Department of Homeland Security Secretary's "If You See Something, Say Something™" campaign, which is a simple and effective program to raise public awareness of indicators of terrorism and terrorism-related crime. Both the "If You See Something, Say Something™" campaign and the NSI underscore the concept that a secure homeland begins with hometown security, where an alert public plays a critical role in keeping our nation safe.

Suspicious activities are behaviors and indicators that, when viewed in the totality of the circumstances, may reasonably indicate terrorism-related criminal activity, in addition to addressing the importance of protecting citizens' privacy and civil rights/liberties. First Amendment activities should not be reported as suspicious activity, unless the facts and circumstances supporting the behavior observed is reasonably indicative of criminal activity associated with terrorism, including evidence of pre-operational planning related to terrorism.

Race, ethnicity, national origin, or religious affiliation should not be considered as factors that create suspicion.

- **Surveillance** - The recording or monitoring of activities with a camera; note taking or marking of maps.
- **Elicitation** - People or organizations trying to gain information about infrastructure, people or military operations.
- **Tests of Security** – Seek to measure reaction times or penetrate security barriers, in order to assess responses.
- **Funding** – Suspicious transactions of large cash payments; withdrawals, deposits and collections for donations.
- **Supplies** -Purchase/theft of materials to be used in a plan (i.e., weapons, ammunition; explosives, access badges).
- **Impersonation** - People who do not belong in the workplace, neighborhood or in a particular building.
- **Rehearsal** - Positioning supplies and personnel according to a plan, without actually committing the terrorist act.
- **Deployment** - People and supplies getting into position to commit the act

All recipients are encouraged to report suspicious activity to the NHIAC Tips Hotline at 603-223-3860 or through the link below.
